

# Restore Guide

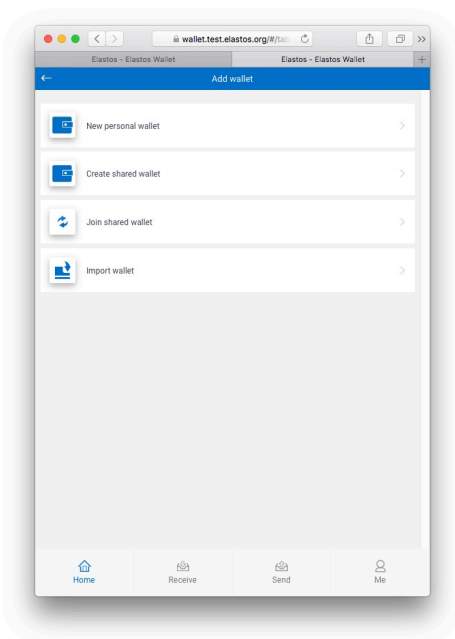

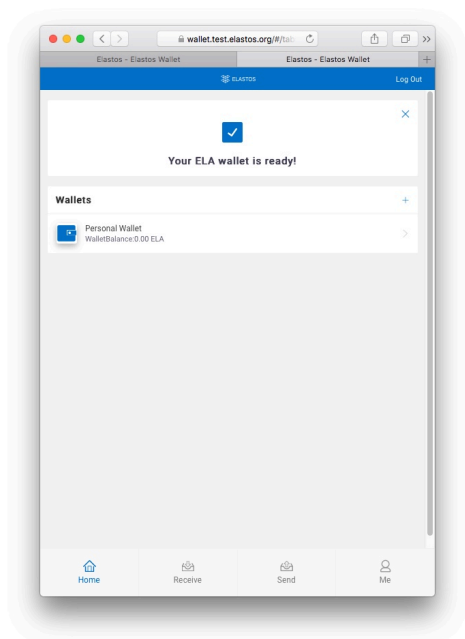

---

## 1. Go to recover page

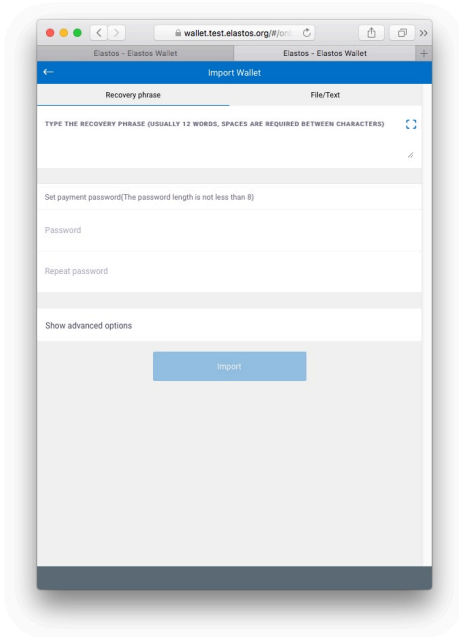

- From Guide page
  - click "Restore from backup"

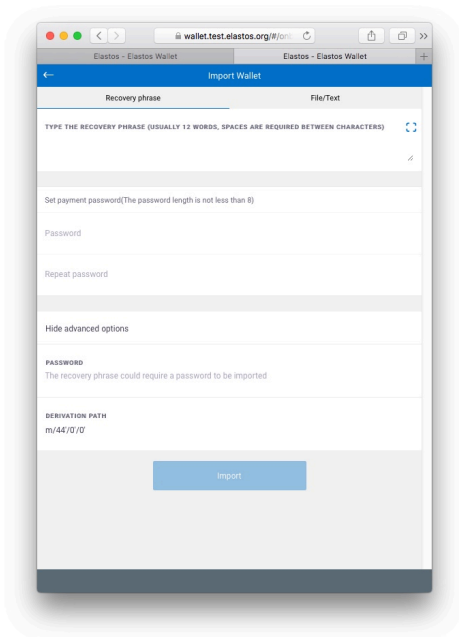

- From Home page
  - click "+" to switch to "add wallet" page
  - click "Import wallet"

2. Type in the recovery phrase (usually 12 words, spaces are required between words)
3. Set Spending password (also payment password) (not less than 8 character)

4. (Optional) Just ignore this step if you are not familiar with optional passphrase.

- If you have set optional passphrase when you create your wallet. Click "Show advanced options" and type your optional passphrase below.
- You should not type in anything if you do not have an optional passphrase.
- Keep "Derivation Path" as default.

5. Click "Import" button
